Projects

grocery

The Grocery Store Website is built using HTML, CSS, and JavaScript. It allows users to view grocery items, add them to a cart, and manage their selection. The site features a responsive design, user-friendly interface, and dynamic cart functionality for a smooth shopping experience.

Image Search Engine

The Image Search Engine is a web app built using HTML, CSS, and JavaScript. It allows users to search for images using keywords and fetches results from an external API (like Unsplash or Pixabay). It features a responsive design, dynamic image loading, and smooth UX.
